LIM 3.0

Designed by Fattorini + Rizzini + Partners

Lim 3.0, a makeover of the LIM iconic family, renews and turns into a light and thin table, with a more up-to date and modern identity. The structure contained in the sections can receive different materials to offer an alternative option to monochromatism and single material structure. Tops are built-into the frame and are available in lacquered tempered glass, ceramic in a bright or satin-coated variant and Fenix an innovative high-pressure stratified laminate. Frame in extruded aluminium, in natural anodised or matt lacquered version in white and graphite grey. Heights 30 cm.
STRUCTURE

Coffee table composed of top, legs and a perimeter frame in extruded aluminium, available in natural anodised or epoxy powder matt painted version in white and graphite grey shades.

TOPS

Tops are built-into the frame and need no fittings.
